The natural fading of materials including wood, fabric, and leather, resulting in color change over time
Marks, scars, or wrinkles occurring naturally in leather
Dye lot variations in fabric, or leather

Puddling in leather, vinyl, or fabric

WOOD FINISHES

Wood finish names such as Mahogany and Cherry describe color only, not wood species. Finishes are applied to maple, beech, or similar woods. Wood surfaces have natural variations in grain and porosity and absorb finishes differently which may result in variations of final color. Finishes will darken and change color over time and with exposure to sunlight. Premium veneer names such as walnut and oak, describe the wood species and have a clear coat finish.

PAINTED WOOD FINISHES

Please note the lifetime structural warranty does not apply to painted finishes. Painted finishes should be specified with consideration of the environment they will occupy. Although a clear sealer coat is applied during production these finishes are topical and they can scratch, dent or mark if treated in a rough manner. If left in direct sunlight for extended periods of time you will notice the color will fade and/or change.

Upholstery and Planning Notes

Layout plans should be sent with PO when possible
 CAD 2D, 3D, Revit and CET symbols available on website
 Source International will cut randomly off the bolt with our best layout discretion as standard procedure
 Solid fabrics with some stretch are best suited for the curved seating units in Scape
 Fabrics with stiff backing can cause upholstery wrinkles on the curved units
 For patterns, please let us know if a specific pattern layout is desired or if you want pattern matching from unit to uni
